The objects of this distribution are: all shareholders of the Company registered with China Securities Depository and Clearing Co., Ltd. (“GDRs”) issued by the Company on the SIX Swiss Exchange, their cash dividends will be paid by the Company to Citibank, National Association, the nominal holder of domestic underlying A-shares corresponding to the GDRs, through China Clearing Shenzhen Branch. Since the acquisition of the GDR dividend income, if the GDR investors need to enjoy the treatment of the relevant tax agreements (arrangements), they may apply to the competent tax authorities on their own in accordance with the regulations.

The record date for GDR investors is the same as that for A-shareholders, the ex-dividend date for GDR investors is June 19, 2024, and the cash dividend payment date is June 28, 2024. The cash dividend will be distributed to GDR investors by the Citibank and National Association through the Euroclear Bank SA/NV and the Clearstream Banking, S.A..

3. The cash dividends for the following A-shareholders were paid by the Company itself:

During the application period for the profit distribution (The application date: July 10, 2025 to the record date: July 18, 2025), if the cash dividends entrusted to China Clearing Shenzhen Branch and paid on behalf of the Company are insufficient due to a decrease in the number of shares in the securities accounts of shareholders paid by the Company itself, all legal liabilities and consequences shall be borne by the Company.

## **VI. Adjustment of relevant parameters**

### **(I) Calculation principles and methods for ex-rights and ex-dividend prices**

As the shares on the Company’s special account for securities repurchase will not

---

participate in the profit distribution, after the profit distribution, according to the principle of unchanged market value of shares, the total share capital of the Company will remain unchanged before and after the profit distribution, and the proportion of the total amount of cash dividends to be apportioned to each share will be reduced. The total amount of actual cash dividend of the Company = total share capital actually participating in the distribution  $\times$  distribution ratio, i.e. RMB 179,127,994.60 = 1,791,279,946 shares  $\times$  RMB 0.1 per share. Therefore, when calculating the ex-dividend price after the profit distribution, the cash dividend per share shall be calculated at RMB 0.0992147 per share (Cash dividend per share = Total cash dividends / Total share capital, i.e. RMB 0.0992147 per share = RMB 179,127,994.60  $\div$  1,805,457,485 shares).

In summary, under the premise of ensuring that the profit distribution plan remains unchanged, the ex-rights and ex-dividend price after the 2024 annual profit distribution will be executed in accordance with the above principles and calculation method, i.e., ex-rights and ex-dividend price after the profit distribution = Closing price on the record date - RMB 0.0992147 per share.

**(II) Price adjustments related to the stock option incentive plan and the share repurchase plan**

After the profit distribution, the exercise price of the 2021 Stock Option Incentive Plan and the 2022 Stock Option Incentive Plan currently being implemented by the Company, as well as the subscription price of the reserved portion of the Employee Stock Ownership Plan (Phase IV) yet to be implemented will be adjusted accordingly, and the Company will fulfill deliberation procedures for adjustments and disclose announcements in a timely manner.
